Restrictions of Ryan White Part B Services

At least 75% of Ryan White Part B funding must be spent on Core Medical Services:

No more than 25% of Locally funded Ryan White Part B Support Services:

Ryan White HIV/AIDS Program Services: Eligible Individuals & Allowable Uses of Funds

*Policy Clarification Notice (PCN) #16-02 (Revised 10/22/18)
Replaces Policy #10-02*

Scope of Coverage: Health Resources and Services Administration (HRSA) Ryan White HIV/AIDS Program (RWHAP) Parts A, B, C, and D, and Part F where funding supports direct care and treatment services.

Purpose of PCN

This policy clarification notice (PCN) replaces the HRSA HIV/AIDS Bureau (HAB) PCN 10-02: Eligible Individuals & Allowable Uses of Funds. This PCN defines and provides program guidance for each of the Core Medical and Support Services named in statute and defines individuals who are eligible to receive these HRSA RWHAP services.

Background

The Office of Management and Budget (OMB) has consolidated, in 2 CFR Part 200, the uniform grants administrative requirements, cost principles, and audit requirements for all organization types (state and local governments, non-profit and educational institutions, and hospitals) receiving federal awards. These requirements, known as the "Uniform Guidance," are applicable to recipients and subrecipients of federal funds. The OMB Uniform Guidance has been codified by the Department of Health and Human Services (HHS) in [45 CFR Part 75—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards](#). HRSA RWHAP grant and cooperative agreement recipients and subrecipients should be thoroughly familiar with 45 CFR Part 75. Recipients are required to monitor the activities of its subrecipient to ensure the subaward is used for authorized purposes in compliance with applicable statute, regulations, policies, program requirements and the terms and conditions of the award (see [45 CFR §§ 75.351-352](#)).

[45 CFR Part 75, Subpart E—Cost Principles](#) must be used in determining allowable costs that may be charged to a HRSA RWHAP award. Costs must be necessary and reasonable to carry out approved project activities, allocable to the funded project, and allowable under the Cost Principles, or otherwise authorized by the RWHAP statute. The treatment of costs must be consistent with recipient or subrecipient policies and procedures that apply uniformly to both federally-financed and other non-federally funded activities.

HRSA HAB has developed program policies that incorporate both HHS regulations

Why Understanding Ryan White Part B Matters

Ryan White Part A is the payor of last resort.

Just because services are not funded under Ryan White Part A does not mean they are unavailable.

By understanding other grantee funding, you get a better understanding of all available services.

AIDS Drugs Assistance Program

The AIDS Drug Assistance Program (ADAP) is a statewide, federally funded prescription medication program for low-income people living with HIV. This program provides access to medications to eligible clients either directly or by purchase of health insurance that includes coverage for HIV medications.

If you are HIV positive and:

- Need HIV/AIDS medications
- Have income at 400% or less of the [Federal Poverty Level](#)

Why Understanding ADAP Matters

No one should ever be without HIV medication!

People with HIV should have the peace of mind that their medication costs will not be a barrier to staying healthy.

Insurance through ADAP may provide people with HIV a broader range of available services.
