Dear [FIRST NAME] [LAST NAME]:

You are receiving the following information as you have been identified as a client that is currently receiving premium insurance support and medication services through the U.S. Health and Human Services grant program known as the Ryan White Part B Drug Assistance Program (ADAP).

Due to the increase in the cost of HIV/AIDS medication and health insurance premiums, eligibility criteria for current ADAP clients will change.

Under current federal funding limitations, clients that are serviced by the Ryan White Part B ADAP will be prioritized based on the Federal Poverty Level of up to 130% effective March 1, 2026. Effective March 1, 2026, ADAP Patient Care services will no longer be offering the ADAP Premium Plus Insurance Program. ADAP Patient Care services will be limited to providing medication services through the Ryan White Part B ADAP.

Based on our records, your insurance coverage will end on February 28, 2026. However, records indicate that, as of March 1, 2026, you will be eligible to receive direct medication assistance through the Ryan White Part B ADAP. For any questions regarding the direct medication services and to enroll, please contact Prime Therapeutics, LLC., at 1-833-604-0925.

In addition, Biktarvy will no longer be available on the ADAP formulary as a medication option for Ryan White Part B ADAP clients receiving direct medication assistance, however, clinically equivalent medications will still be available. If you are currently taking Biktarvy, please contact your health care provider to receive a prescription for a clinically equivalent medication.
