I. Call to Order

James Dougherty

The Chair, James Dougherty, called the meeting to order at 9:41 a.m. He introduced himself, provided an overview of the work for the day's meeting, and welcomed everyone.

II. Introductions

All

Mr. Dougherty requested that members, guests, and staff introduce themselves.

III. Meeting Housekeeping

James Dougherty

Mr. Dougherty reviewed the meeting housekeeping presentation, including people first language, meeting protocols, location of Subcommittee meeting items online, and identification of resource persons.

IV. Floor Open to the Public

Cristhian Ysea

The Vice Chair, Cristhian Ysea, read the following:

"Pursuant to Florida Sunshine Law, I want to provide the public with a reasonable opportunity to be heard on any item on our agenda today. If there is anyone who wishes to be heard, I invite you to speak now. Each

person will be given three minutes to speak. Please begin by stating your name and address for the record before you talk about your concerns. BSR has a dedicated phone line and email for statements to be read into the record. No statements were received.”

There were no comments, so the floor was closed.

V. Review/Approve Agenda

Motion to accept the minutes of January 23, 2026, as presented.

Moved: Dr. Lawrence Friedman

Seconded: Cristhian Ysea

Motion: Passed

VII. Standing Business

▪ **Response to the 2026 ADAP Program Changes-Updates**

The Miami-Dade Ryan White Program indicated that they are preparing a request to the Florida Department of Health for guidance on eligibility changes and documentation. Ryan White Program Part A/MAI subrecipients have received communication from the Office of Management and Budget on the contingency planning work in process; and a letter is being prepared to be shared with RWHAP clients.

The media campaign to promote the Ryan White Program has launched with a dedicated website; County Ryan White staff have included the website link on their emails. No RFP will be issued for 2026-2027 services at this time; instead, an extension of contracts has been requested.

The Ryan White grant is expected to receive a reduction of about \$200,000 based on the new formula methodology from HRSA. The final award has not been received yet.

Attendees were reminded that no official communication from the state has been provided about ADAP changes and business should continue as usual. Local programs can develop contingency planning. The local ADAP office can issue a notice of ineligibility but not a non-qualification notice.

Funding should be applied to essential services to serve those clients above 130 FPL%. If contingency plans go forward, changes would be phased in likely with a 60-day window of change and service prioritization.

For some patient assistance programs, denial letters are needed.

Some FQHCs may have medications on hand to provide. The most important thing is not have gaps in prescription drugs and outpatient ambulatory health care which are critical services.

MAI funding is similar to Part A but the provision of services is different in that it provides limited services to minority clients. The current program is under-spending the five funded services and needs to maximize usage.

The ADAP year runs from April 1-March 31.

At the Jackson Health clinic, eligibility specialist are reaching out to clients to verify medications and doctors in case any changes are needed.

Medical Case Managers should remind clients to maintain eligibility and request a 90-day supply of medications.

▪ **Formulary Reviews and Prioritization**

□ Oral Health Care Formulary

In FY 2025, over \$4 million dollars were allocated to oral health care, which is a category that spends most of the allocation (97%). With the current situation, services may need to be reduced to basics cutting back on root canals, dentures, and implants. Reducing services to oral evaluations, diagnostics, preventive services, restoratives and extractions could produce an estimated \$2 million in savings.

Dr. Manual Casas, a dental provider, indicated that reducing services may impact quality of life.

The Medicaid program has two dental insurance programs, one of which covers many services, including dentures.

Additional resources for oral health care:

- Lindsey Hopkins;
- Community Smiles;
- UF/Nova Southeastern (discounts offered); and
- Sliding fee scale at centers.

The former Oral Health Care Workgroup members were requested to prioritize oral health care services, and a copy of the reply by one of the members was included in the meeting materials. The former OHC workgroup members will be requested to review utilization for codes and offer areas for cost-savings.

□ Allowable Conditions

Some additional services that are currently offered may need to be cut if not specific to HIV care, e.g. ophthalmology, chiropractic care, and podiatry.

Labs under outpatient ambulatory health services account for \$3 million in expenditures and frequency may need to be addressed. Utilization of outpatient ambulatory health services codes by cost and number of clients will be brought to the next meeting for evaluation.

- Prescription Drugs Formulary

The Subcommittee opted to wait to address changes to the Ryan White prescription drug formulary until additional information on formulary changes is released by the ADAP program.

VIII. Announcements

All

No announcements were made.

IX. Next Meeting

Cristhian Ysea

The next meeting is scheduled for Friday, February 27, 2026, at 9:30 a.m. at BSR.

X. Adjournment

James Dougherty

Mr. Dougherty thanked everyone for participating in the meeting and called for a motion to adjourn.

Motion to adjourn.

Moved: Dr. Vanessa Rojas

Seconded: Juliet Miller

Motion: Passed

The meeting adjourned at 11:28 a.m.

Subject: Important Information About Florida ADAP Changes and Your Ryan White Program Services

Dear Interested Parties,

We are writing to share important information about proposed changes to Florida's AIDS Drug Assistance Program (ADAP). While these changes have not yet taken effect, we want you to know what you can do right now and how Miami-Dade County is preparing to support you.

What You Can Do Right Now

You can help protect your health and access to care by taking these steps:

- **Please do not stop taking your medications.**
- **Continue attending your medical appointments as scheduled.**
- **Check your mail** and bring any letters from ADAP to your Medical Case Manager. They can help you understand the changes.
- Be sure to pick up medications in February, ask your pharmacy if you can get up to a **90-day supply**.
- Stay in close contact with your **Medical Case Manager**, who can help explain options and next steps.
- If you do not currently have a Ryan White Medical Case Manager, you can visit www.miamidade.gov/HIVSupport to find assistance near you, or contact the Ryan White Program at 305-375-4742 for help.
- Visit the **Florida Department of Health website** for the latest information about ADAP changes: <https://www.floridahealth.gov/individual-family-health/injury-prevention-wellness/hiv-aids/hiv-aids-management/>

What Is Happening

A recent notice on the Florida Department of Health's website indicated that it plans to make major changes to ADAP eligibility and services beginning **March 1, 2026**, if those changes proceed as outlined. These changes were also communicated through letters that some clients may have received and may include:

- **Lowering the income limit to qualify for ADAP** – making clients with incomes over 130% of the Federal Poverty Level (approximately \$20,748 per year for a household of one) ineligible for ADAP services
- **Ending help with paying for health insurance premiums**
- **Changing which HIV medications are covered** – no longer covering Biktarvy® and limiting who can receive Descovy®

We understand that this information may feel sudden, confusing, or stressful. Please know that local Ryan White programs and community partners did not receive advance notice of these proposed changes. We are actively seeking clarification and raising significant concerns, while preparing to respond to potential impacts on clients and local services.

What This Means for You

If ADAP moves forward with these changes:

- Some clients may lose help paying for insurance or medications through ADAP
- Some clients may need to rely more on local **Ryan White Programs** for HIV medical care and prescription drug assistance

Please know:

- **No immediate changes are happening today.**
- Miami-Dade County is actively planning to **help minimize disruptions to care.**
- **The County, community partners, and advocates across Florida** are actively monitoring, seeking clarification and raising concerns regarding the proposed ADAP changes.
- **Some Ryan White Program services may be impacted** if ADAP changes are implemented, but our goal is to preserve access to the most essential HIV-related care, specifically medical care and access to life sustaining medications.
- If changes to some local Ryan White Program services become necessary, they would happen **gradually**, not all at once.

What Miami-Dade County Is Doing

Miami-Dade County and the Ryan White Program are:

- Working alongside community partners and advocates who are **urging the state to reconsider or modify the proposed ADAP changes**
- **Reaching out to the Florida Department of Health at the State level** and requesting clarification on how ADAP changes will be implemented

- Identifying pharmaceutical companies' **Patient Assistance Programs** to help cover the cost of medications
- Coordinating with local health programs to help support **food assistance and linkage to care services**, where available
- **Preparing a contingency plan** to help ensure clients can continue receiving HIV-related medical services if needed

What's Next

As more information becomes available, Miami-Dade County will continue to share updates through:

- Your Medical Case Manager
- Local service providers and support programs
- Miami-Dade County HIV/AIDS Support and Resources webpage:
www.miamidade.gov/HIVSupport
- Miami-Dade County Ryan White Program webpage:
www.miamidade.gov/global/management/ryan-white-program.page

We are committed to sharing clear, accurate information and to doing everything possible to support you during this time. You are not alone.

Sincerely,

Carla Valle-Schwenk
Ryan White Program Administrator

This is incredibly difficult. I have worked at this center and within this program for over 20 years, and I have read this email and reviewed the data repeatedly. While it is clear that certain codes are utilized more frequently than others, and may therefore appear to be priorities, it is hard to justify eliminating any of them. We truly need the entire formulary. Oral health care is not one-size-fits-all, and every patient and every service counts.

In my previous email, I ranked procedures in order of importance, but that ranking reflects the natural sequence of treatment planning rather than value. Our approach is comprehensive and sequential: diagnose, eliminate disease or active infection, provide prevention, restore function, and then maintain. Each step is essential.

For example, we may need to extract non-restorable or infected teeth to eliminate disease, but the ultimate goal is to restore function which is replacing missing teeth so patients can chew properly and maintain adequate nutrition. That directly impacts overall health and quality of life. Similarly, patients with periodontal disease often require scaling and root planing (deep cleaning) to control infection and preserve existing teeth. Without this intervention, tooth loss is likely.

Oral health is a critical component of overall health, and this is especially true for people living with HIV (PLWH). Dental care is a core, medically necessary service that is directly linked to HIV outcomes. PLWH experience higher rates of oral infections, periodontal disease, and untreated caries. It is extremely challenging to consider eliminating services that directly address these needs. Comprehensive oral care significantly affects overall health and quality of life.

I return to my original suggestion, rather than eliminating procedures, perhaps we could consider reintroducing limitations on certain services (such as dentures) or adjusting the maximum allowable benefit per client. Once a client reaches the cap, they could wait until the next benefit cycle. If funds remain available later in the cycle, the cap could potentially be revisited. If funds are not available, clients could apply for a discounted rate under a sliding fee scale. This allows us to manage financial constraints while preserving comprehensive services. Access and continuity of care should not be compromised.

Thank you for considering my perspective.

To the Medical Care Subcommittee:

Thank you for the opportunity to provide input regarding the proposed modifications to oral health service coverage.

Essential Oral Health Services for People Living With HIV

For medically compromised patients—such as those living with HIV—maintaining oral health is not optional; it is directly linked to systemic health, nutritional status, medication tolerance, and overall quality of life.

People living with HIV face well-documented oral health challenges, including higher rates of fungal, viral, and bacterial infections; salivary gland dysfunction and xerostomia; accelerated periodontal disease progression; oral lesions related to immune suppression; and medication-associated oral complications. Without timely access to appropriate care, these conditions can worsen rapidly. The consequences are significant: pain, impaired nutrition, reduced adherence to antiretroviral therapy, and preventable emergency department visits.

For these reasons, **all services** included in the current Ryan White Program Oral Health Care Formulary should be considered **essential** for supporting the health of patients living with HIV.

Given the upcoming budget cuts and the potential limitations on available services, it is important to emphasize that determining which services are essential can only be done on an individual basis after assessing each patient's specific dental needs. The treatment required to restore or maintain oral health for one group of patients may be completely different from the needs of another. For this reason, my recommendation would be to maintain the current **formulary unchanged**. A potential solution to accommodate the impending budget reductions could be establishing overall or procedure-specific coverage caps that align with the revised budget.

Since limiting coverage to diagnostic, preventive, and restorative services has been discussed, I can provide examples of procedure codes that fall outside those categories but are, in many cases, critical for this population. Although, as mentioned, these would not encompass all the services needed to guarantee positive outcomes.

Periodontal Therapy Beyond Basic Prophylaxis

These procedures are essential for managing the accelerated periodontal disease progression frequently seen in immunocompromised patients:

- **Scaling and root planing (2 codes)**
- **Scaling in the presence of generalized moderate or severe inflammation (1 code)**
- **Full-mouth debridement (1 code)**
- **Periodontal maintenance (1 code)**

Prosthodontic Services for Function and Nutrition

Tooth loss can significantly affect eating ability, weight maintenance, and overall health. For many patients, prosthodontic services are necessary rather than elective:

- **Complete dentures** (2 codes)
- **Partial dentures** (5 codes)
- All associated adjustment, repair, rebase, and reline procedures

Endodontic Services (Root Canals) (1 code each)

Endodontic therapy is often needed to preserve teeth, prevent infection, and avoid extractions that could compromise function. All codes in this category are important; however, the procedures that patients can realistically access will depend on the services available through participating providers.

- Therapeutic pulpotomy
- Pulpal debridement, primary and permanent teeth
- Endodontic therapy, anterior tooth (excluding final restoration)
- Endodontic therapy, premolar tooth (excluding final restoration)

Oral Surgery Services

All codes in this category should be maintained. Although utilization is relatively low, these procedures are often necessary to treat potentially life-threatening conditions. Their availability is critical, even if they are not frequently used.

Adjunctive General Services

These services are required when necessary to safely complete other covered dental procedures:

- Sedation or general anesthesia when clinically indicated based on the procedure or the patient's medical or behavioral needs
- Palliation of oral pain (1 code)

SOURCE OF INCOME INFORMATION

Required by the Miami-Dade County Code, Section 2-11.1(i)

The term **INCOME** shall include, but is not limited to, the following items: wages, salaries; tips; bonuses; commissions & fees; dividends, interest; profits from businesses and professions; your share of profits from partnerships and small business corporations; pensions, annuities & endowments; profits from the sale or exchange of real estate, securities or other property, including personal residence; rents and royalties; your share or estate or trust income, including accumulated distributions; alimony, separate maintenance or support payments; prizes; awards; fees as an Executor, Administrator or Director; disability retirement payments; workmen's compensation, insurance; damages; social security payments, etc.

FILING INSTRUCTIONS

A "Source of Income Form," (SOI) or a signed copy of the personal income tax forms may be filed to satisfy the filing requirement for County/Public Health Trust employees, municipal employees, advisory board members, and consultants providing professional services to the County or a Municipality who are not required to file under State law. State filers who also hold County or Municipal positions (for example, State filers who also serve on County or Municipal boards) meet the County financial disclosure requirement by filing their state form with the Florida Commission on Ethics.

The Source of income Form must be filed yearly no later than 12:00 noon of July 1st. Consultants file within thirty (30) days of execution of a contract arising out of competitive negotiations and prior to any payments from the County, municipalities or other agencies and thereafter on a yearly basis no later than 12:00 noon of July 1st. For the last year of service, file "Final Source of Income Form" (SOI-F). The SOI and SOI-F can not be used as a substitute for State Form 1 or State Form 1F for those required to file under state requirements.

Filers whose address is exempt pursuant to Fla. Stat. §119.07 must provide an alternate address such as a business address or the address of the board if the filer serves on a board.

This form must be filed by July 1st of each year and can not be used as a substitute for State Form 1 for those required to file under state requirements. For the last year of service, file SOI-F.

Example (Review sources of income above; note - no monetary amount required).

Name of Source of Income	Address	Description of Principal Business Activity
Name of place of employment	Address where employed	Salary
Rental Property	123 Anywhere Street Miami, FL 00000	Rental income
Social Security	Social Security office closest to your zip code	Social Security income

Miami-Dade County (including Public Health Trust) Personnel and Advisory Board members shall file completed forms with: Miami-Dade County Commission on Ethics and Public Trust

Via EMAIL: financial.disclosures@miamidade.gov

or by mail to:

**Miami-Dade County Commission on Ethics and Public Trust
701 NW 1st Court 8th Floor, East
Miami, FL 33136**

Municipal Personnel and Advisory Board Members shall file completed forms with their respective Municipal Clerk. Municipal employees may contact their respective Municipal Clerk's Office. For further information, Miami-Dade County and Public Health Trust employees may contact the Miami-Dade County Commission on Ethics and Public Trust via telephone at 305-579-2594 or via email at financial.disclosures@miamidade.gov.

Note RE: Florida Statutes § 119.07: The role of our office is to receive and maintain forms filed as public records. If your home address is exempt from disclosure and you do not wish your home address to be made public, please use your office or other address for your mailing address. A full list of positions and offices eligible for public records exemption can be found at Florida Statutes § 119.071.
